

Thank you for purchasing Chirpie Link!

We are dedicated to safer communities for women, children, and vulnerable individuals.

When to use it

Chirpie Link is designed for emergency situations where you feel unsafe and need to alert people around you or deter potential attackers.

How to Use the Alarm**A. Alarm Activation**

- **Pull the Top Pin:**
 - o Activates the 130dB siren and flashing strobe light.
 - o The alarm will continue until manually turned off.
 - o Duration: On a full charge, the alarm can sound for up to 90 minutes.

B. Lighting Functions

- **Flashlight & Strobe Mode:**
 - o Press the side button once to turn on the flashlight.
 - o Press again to switch to strobe mode.
 - o Press a third time to turn off the light.
 - o The light will automatically shut off after 3 minutes if not deactivated manually.

Using the SOS Function

Before use: Set up an emergency contact, enable SOS options, and turn on Bluetooth.

Pairing with Your Smartphone

1. Activate Pairing Mode: Long-press the side button for 3 seconds until you hear a beep.
2. Open Bluetooth Settings: On your Android or iPhone, enable Bluetooth and select "SOS personal alarm."
3. Confirm Connection: A confirmation beep will sound when pairing is complete.

Activating SOS

- **Automatic SOS:**
 - When you pull the top pin and the alarm sounds for over 5 seconds, your phone will automatically call emergency services and send your location to your emergency contact (dependent on your network and phone model).
- **Silent SOS (Stealth Mode):**
 - Press the side button 5 times quickly to automatically call emergency services and send your location to your emergency contact (dependent on your network and phone model).
- **To Turn Off SOS:**
 - Press the side button twice quickly, then hold until you hear two beeps.

Low Battery Alert

- When the battery voltage drops below 3.2V, a red light will blink 10 times every time you press the button or pull the top pin, indicating a low battery.

Additional Information

Chirpie Link is intended for emergency use only. Always use it responsibly and in accordance with local laws. Regularly check your battery level and update your smartphone's emergency contact settings.

Charging Instructions

- **Charging Port:** USB Type-C
- **Charging Time:** Approximately 1 hour
- **Battery Capacity:** 200mAh / 3.7V
- **After Charging:**
 - o Long-press the side button to activate Bluetooth and re-enable pairing mode.
